

HARDWARE

CLUTCHES - FEATURES

Lewmar has redefined rope clutch technology with a variable geometry handle and unique grip pattern of dominos that prevent rope fray. This revolutionary new system has been independently tested time and again and has won awards for its innovative framework.

- Full Range
- Easy Installation
- High holding Power
- Supplied with decals
- Domino mechanism

Instead of just jamming the rope...

... Lewmar's Domino mechanism flexes it for better grip and less rope wear. Dominos also allow multiple holding points.

Lewmar's award winning rope clutch can now be clearly marked and identified with Lewmar's range of info-graphics specially designed to suit all sailing applications.

ROPE CLUTCH SELECTION GUIDE
